

**2022 mini-Beyond First Year Regional ALPhA Conference  
NY Region, SUNY New Paltz  
Logistics**

We are looking forward to your attendance at the mBFY conference for the ALPhA New York Region on Friday, June 17. We will have a fantastic group of regional colleagues coming together for discussions, workshops on advanced lab experiments, and talks about the advanced lab.

**Arrival:**

You should plan to arrive between 9-9:30 am and park in the Shango or Haggerty Administration Building parking lots, which are a one- to five-minute walk from Science Hall. We will be meeting in the first floor of Science Hall for registration and breakfast. We will get started at 9:30 am.

**Workshops, Talks, and Networking:**

Primary goals of this conference are learning, sharing, and networking. ALPhA members from the New York region and nearby states will be presenting workshops on an advanced lab topic and discussing teaching strategies and experiments. All participants will generate ideas on particular topics relevant to teaching in the advanced lab and share them with the group.

\*\*Special Make-and-Take workshop! Participants will be introduced to MicroPython and the TinyPICO microcontroller with applications of an environmental sensor, an alpha particle counter, or an I-V diode curve measurement. This workshop must be pre-registered and has a cost of \$40.

**Campus Map and Parking at New Paltz:**

On our event page you will find a campus map. One week before the workshop registrants will be emailed a temporary parking permit to print and use.

**Lodging:**

If you plan to stay overnight, a room block has been reserved at the Hampton Inn New Paltz, five minutes from campus. **These rooms will be released after May 16**, so book before then. The room rate is \$129.00 plus tax. To book a room, use this link:

**Booking**
